

HEADBAND STANDARD DOUBLE SIDED - DELUXE (#HBSTDS-D)

Your custom designed KOOLGATOR Headband will be Dye Sublimated onto an all white polyester fabric using a digital printer. **Please provide your artwork in an Adobe Illustrator File or as a editable Vector PDF, compatible with the current Illustrator version.**

Provide PMS colors for all colors used if you have them. Convert all fonts to paths. Photographs must be embedded in the AI file. Embedded images should be JPEG or PNG files and have a resolution of 300 dpi.

The dye sublimation process produces dot gain so small or reversed elements may become illegible. Printing on fabric will not provide the same clarity or exact colors as seen on your color proof. PMS colors will be matched as closely as possible however some color variation is normal.

The approximate size of the KOOLGATOR Headband Standard Double Sided Deluxe is 2.25" x 19" on Side A and 2.25" x 19" on Side B, before it is folded in half and sewn. Artwork on Side A and Side B can be the same or completely different.

Both Side A and Side B have a Print Safety area represented by the Blue Dashed Area (-----). This ensures logos do not get cut off, so make sure all logos and artwork stay within this area, to ensure they are fully shown when the product is sewn and completed.

There is a .25" Full Bleed Area that is represented by the Red Dashes (- - - - -). Artwork must be designed to the Full Bleed, which is necessary for the way this product is sewn together. The directions can be changed to any color you select for your artwork or removed.

Based on the way the can be worn, there is no "front side" or "back side" or "right side up" or "upside down." Either Side A or Side B being worn "right side up" or "upside down" has a 50/50 chance of occurring.

Once sewn together, this product will be circular and approximately measure 9" Wide by 2" Inches Tall, when laying down on a flat surface.
